<b>FAMILIES LIVING IN THE FARM:</b> 03	<b>PROCESSING:</b> Natural, Pulped Natural and Fermented
<b>CERTIFICATION:</b> Rainforest Alliance	<b>DRYING STRUCTURE:</b> Concrete patio, rotating dryers

## HISTORY IN BRIEF

*"One of the things that I have the most passion for in my life is to grow several coffee cultivars, to work with the research of coffee varieties. Today I am proud to be part of Sancoffee, to be one of the founders, and to be a coffee grower!"*

### Josué Pereira Figueiredo

Coffee growing is a fundamental part of the life of the grower Josué Pereira Figueiredo. Born and raised in the middle of coffee fields, since he was a child, Josué accompanied his father in the fields. His love for coffee motivated him to start his bachelor's in Agronomy, and in 1971, Josué became an Agronomist.

In 1972, with 26 years and many ideas, he had the opportunity to buy a farm in Santo Antônio do Amparo, in Campo das Vertentes region, Fazenda Bom Jardim. So, Josué started his own journey in the coffee world.

In 1975, Josué joined the Brazilian Coffee Institute (IBC) working as a Researcher, evaluating the behavior of several coffee varieties in Experimental Farms. Reconciling the life of a researcher and producer, he inserted the best-cultivated crops researched at the Institute on his farm, and shortly after the closure of the IBC, he started a new stage in his life, producing coffee seeds at Fazenda Bom Jardim.

Sharing the same passion for specialty coffees Lucas Pereira Figueiredo followed in his father's footsteps. Graduating in Agronomy, he continues the secular tradition of the family, helping Josué in the daily life of the farm, providing well-being for employees, committed to the preservation of nature, and aligning tradition with innovation.
