HISTORY IN BRIEF

"I've had contact with coffee since I was a child and I've always had the idea of quality improvements and with the partnership with Sancoffee we had the opportunity to to produce specialty coffee and sell the quality we produce"

Sebastião Ricardo Silveira

Sebastião Ricardo was born and raised on a coffee farm. He started working with his father and with that, he could acquire his own farm which he dedicates his time to nowadays.

Sebastião is a grower from Oliveira, where he is also a member of the ASCOFFEE association. He is also a beekeeper and currently splits his time between this activity, mainly for the production of propolis, and a small coffee field, with 0.6 hectares.

Due to the size of his coffee area, he always wanted to focus on high-quality micro-lots. His first participation in Best Sancup was in 2021 and he is keeping consistent work being able to be a finalist again this time with two coffee lots, fermented and natural.

With this motivation, Sebastião is excited to keep improving the quality of his coffees year after year.
